Dear Jim,

My handicap lingers, limits me. There is something I ask you to do in strictest confidence - and take this literally, please - if you can find the time to check what should be available at your library and what might not be.

Address:
135 Harvard East -poss apt house, if so, xerox and I'll pay, going back to issue dated 1969.
725 23 Rd E, esp 1971.

If you find any duplications, as you should if the 1971 directory is out, please check backward by name.

If you can get Kansas City, Kansas, phone books (inc. suburbs), please check the name Carver Cayton beginning in 1964, if possible. Should end 1968 or 9. If no phone books, and you can get city directory, pls check it there. And in Seattle beginning 1968.

Hope you throw what was bothering you. I'll not know more about thumb until I see ortho. surgeon next week.

Thanks and best regards,
